niraj_202300543@smit.smu.edu.in

PROFESSIONAL OBJECTIVE

Looking for opportunity where I can make the best of my qualifications and contribute to the organization.

EDUCATIONAL QUALIFICATION

DEGREE	INSTITUTE	SUBJECTS	CGPA	YEAR
B.Tech CSE	SIKKIM MANIPAL INSTITUTE OF TECHNOLOGY	COMPUTER SCIENCE ENGINEERING (CORE)	7.56	Currently pursuing 2023- 2027
12 th	GYAN NIKETAN PATNA VVC	PHYSICS, CHEMISTRY, MATHS, ENGLISH, PHYSICAL EDUCATION	79%	2022
10 th	MDJ PUBLIC SCHOOL AMARPURI,ARA	SCIENCE, MATHS, SOCIAL STUDIES, ENGLISH, HINDI,	83%	2020

PROJECTS

Employee Salary Prediction

- ◆ Built an end-to-end machine learning pipeline to predict employee salaries using demographic and job-related features.
- ◆ Trained and compared multiple regression models (Linear, Decision Tree, Random Forest, XGBoost, CatBoost) and selected the best performer.
- ◆ Developed and deployed an interactive Streamlit web app on Render for real-time salary predictions with visual insights.
- ◆ Github Link: <https://github.com/nirajj12/SalaryPrediction>

Diabetes Prediction

- ◆ Built a machine learning model to predict diabetes using patient health data.
- ◆ Utilized Scikit-learn with logistic regression and decision trees for classification.
- ◆ Aimed at early diagnosis and preventive healthcare applications.
- ◆ Github link: <https://github.com/nirajj12/AI-ML-PROJECTS>

Movie Recommendation System using Machine Learning

- ◆ Developed a personalized movie recommendation engine using user ratings.
- ◆ Applied collaborative and content-based filtering techniques with Scikit-learn & Surprise.
- ◆ Designed to enhance user engagement on entertainment platforms.
- ◆ Github link: <https://github.com/nirajj12/AI-ML-PROJECTS>

Processing Image Data for Deep Learning

- ◆ Preprocessed image datasets using OpenCV and Pillow for deep learning workflows.
- ◆ Applied data augmentation with Albumentations and torchvision for model robustness.
- ◆ Enabled accurate training for tasks like image classification and object detection.
- ◆ Github link: <https://github.com/nirajj12/AI-ML-PROJECTS>

IMDB Sentiment Analysis with SimpleRNN

- ◆ Built a sentiment classification model using TensorFlow/Keras with a pre-trained SimpleRNN on the IMDB dataset.
- ◆ Implemented text preprocessing techniques like tokenization and padding for accurate predictions.
- ◆ Developed a Streamlit web app for real-time movie review classification with confidence scores.
- ◆ Github link: <https://github.com/nirajj12/MovieReview-using-simple-RNN>

SKILLS

C

C++

Python

HTML

CSS

JAVASCRIPT

SQL

MONGODB

MACHINE LEARNING

NATURAL LANGUAGE PROCESSING

DEEP LEARNING
